

EventHub

College Event Management Platform

Find an event, book a seat, pay, enter with a one-time QR ticket and download a verifiable certificate — clubs create events, the admin approves them and volunteers scan tickets at the gate.

THE STUDENT JOURNEY

WHAT MAKES IT SPECIAL

🔒 Never oversells

Optimistic locking + retry — 100 students, 10 seats, exactly 10 bookings.

✅ One ticket, one entry

A single conditional SQL UPDATE — 20 gates at once, exactly one "Let in".

📋 Smart waitlist

Freed seats are offered to the next student for 30 minutes, with email + bell.

💰 Safe payments

Signed webhooks, processed only once, automatic refunds for late payments.

🔒 Secure by design

BCrypt, JWT in httpOnly cookie, CSRF, role checks on every request, login lock.

📊 Insight

Analytics dashboard (cached), anonymous feedback, full audit log.
